IGP Coteaux du Pont du Gard, France

The 2023 vintage, despite a dry winter, saw the vines start their cycle. A rainy spring boosted growth, especially of the grenache. Summer heat exceeding 40°C affected yields, but the quality of the grapes remains excellent, offering powerful red wines, aromatic whites, and tension for rosés.

PRESENTATION

Maestral or mistral is the name given to the north wind that descends the Rhone corridor. Associated with the expertise of our winemakers, it contributes to the quality of our wines.
